

Wherever you go

From the moment you were born,
we knew about this day,
but it's like being torn
when you start your own way.

We always knew,
you will leave one day,
but that it's so soon,
is hard, but it's okay.

Refrain: *Wherever you go, whatever you do
our love is forever with you.
And it'll always find a way to you.*

*We live for moments of love,
to care and to share, to hold you in love, yeah.
We will always care, we always will be there.*

I thought after school
you'll find a job,
and perhaps there would be
someone around you love.

I imagined releasing
you step by step,
but fate preferred
to connect us just by web.

Refrain: *Wherever you go, whatever you do
our love is forever with you.
And it'll always find a way to you.*

*We live for moments of love
to care and to share, to hold you in love, yeah.
We will always care, we always will be there.*

We will stay here
and you are leaving now,
many things to say,
but I don't know how.

When I look at you,
I see my pretty little girl,
but you're almost grown
and anxious 'bout the world.

Refrain: *Wherever you go, whatever you do
our love is forever with you.
And it'll always find a way to you.*

*We live for moments of love,
to care and to share, to hold you in love, yeah.
We will always care, we always will be there.*

You're excited today
to go to the far end.
You fly far away
to a wonderful land.

We will think of you,
for sure we'll miss you much
but we wish you the best
and always keep in touch.

Refrain: *Wherever you go, whatever you do
our love is forever with you.
And it'll always find a way to you.*

*We live for moments of love
to care and to share, to hold you in love, yeah.
We will always care, we always will be there.*
